

The person behind the company

Ingela lekfolk is an award-winning documentary filmmaker, director and radio producer. She has previously worked on the SR, where she produced and directed over one hundred children's programming and more julkalendrar. Since 2007 she runs lekfolk AB Production of full-time. It produces and directs her documentary film, radio and theater. Ingela lekfolk productions are consistently eager reports on human rights in the form of equal value regardless of gender, age, environment, political opinions, religious or ethnic background.

From its inception in 2007 AB until today we have doubled our turnover and our business. In each leg and the project is a great personal commitment and invested resources. To run a business which shape and reflect current issues, we sometimes start up a new production process before the financing is completed, otherwise we may miss the entire production. It can and we make today. It creates both sustainability and growth.

Lekfalk Production AB has a solid economy, strong muscles and more as we will train. We emphasize healthy and is constantly breaking new ground.

We work with each long bone. We do this by building networks, building trust, be innovative and keen to produce culture. We have a mobile workforce and hire skilled tip for each individual project. From actor to the mower.

Our clients SVT, UR and SR, as well as a number of international television channels. Our sponsors are government agencies whose mandate is to support culture.

In addition, we work with outside financing each project.

Lekfalk Production AB should be and is politically and religiously independent it means that we choose our partners carefully. This is critical to our business.

Our customers demand that we are independent.

Today we have a pool experience and a nice company CV allows us to work with major government agencies in Sweden and the world. Generating growth.

I have invested in increasing my knowledge base as a leader and president which is why I also increased the value of my business.

I feel proud to drive a sustainable and growing business by amuse, trouble, disturb and touch.

Best regards
Ingela lekfolk
